

HURLEY IRRIGATION DEMONSTRATED SOON

L. R. Cox, Secretary of the Hurley Commercial Club, was in Amarillo yesterday, and declared to a News representative that the outlook for a record year in his section is most promising.

"Hurley is situated on the proposed route of the Santa Fe from Clovis to Lubbock," said Mr. Cox, "and is in the greatest shallow water belt of the world."

"To demonstrate the truth of this claim, we are going to hold an Irrigation Demonstration and Farmers' meeting in Hurley on Friday and Saturday, March 22 and 23, at which

ten flowing wells will be shown in operation at one time. Special lectures will be delivered by H. M. Painer and L. L. Johnson, Santa Fe demonstrators, and the affair will be on an extensive scale, with many features of interest.

"Invitation has been extended to the outside world to be present and a great crowd is expected. All from Amarillo and elsewhere will be met at Friona in autos and transported free of charge to Hurley on the dates mentioned.

"Hurley is located in Bailey county, north of the Blackwater Draw, and is inaugurating an extensive campaign to advertise and develop the surrounding country along legitimate and substantial lines. We have adopted for our slogan 'Not to boom, but to boom, but to develop.'"
